HOW DR. TEMI WORKS

Telepresence Built For Clinical Environments

Not another video call — a mobile, autonomous platform that brings physician expertise, safety monitoring, and nursing support directly to the bedside.

Physician Presence At The Bedside

Bring a physician to the patient in minutes — with no on-site requirement.

Beyond Standard Telehealth

Autonomous navigation, secure video, monitoring, and digital examination tools.

Faster Clinical Response

Cover urgent situations and coverage gaps the moment they happen.

Better Continuity

Keep care local with fewer unnecessary transfers.

Secure & Encrypted

HIPAA compliant, designed for clinical-grade privacy and data security.

Works With Your Team

Supports physicians, nurses, and care teams — never replaces them.

BUILT ON TEMI V3

The Care Robot, Ready Out Of The Box

Transform The Way You Deliver Care

Dr. temi runs on temi V3 — a single, complete platform with autonomous navigation, secure telepresence, and a full suite of clinical monitoring tools built in. No custom hardware integration required.

SOLUTIONS

Intelligent Solutions Across The Care Journey

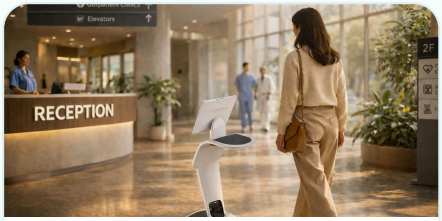

Explore how Dr. temi supports virtual care, patient safety, and hands-free nursing workflows.

VIRTUAL CARE

Telemedicine

Connects patients with remote doctors via video, while supporting nurses with live vitals monitoring.

PATIENT SUPPORT

Patient Navigator

Guides patients from reception to clinics and service points, reducing confusion.

CARE OPERATIONS

Nursing Assistance

Follows nurses on rounds and carries supplies for a hands-free workflow.

MONITORING

Night Patrol

Autonomous night rounds let nurses remotely monitor wards and respond to alerts.

WELLBEING

Joyful Companionship

Karaoke, music, and interactive movement turn senior living into a lively social space.

FAMILY CONNECTION

Remote Visit

Real-time video visits help seniors stay emotionally connected with loved ones.

HEALTH GUIDANCE

Health Information

Provides easy access to health education and hospital information, allowing patients and visitors to quickly find guidance and make informed decisions.

Works With Your Existing Providers

Dr. temi integrates into your current clinical workflows — no need to replace your existing physician network or care software.

24/7

WHERE IT WORKS

Built For Every Care Setting

Wherever patients need faster physician access, Dr. temi deploys — from acute wards to home care.

- **Hospitals**
- **Skilled Nursing Facilities**
- **Long-Term Care**
- **Remote Clinics**
- **Home Care**

TRUSTED & SECURE

Clinical-Grade From The Ground Up

2,000+	HIPAA	<5 Min	24/7
HEALTHCARE FACILITIES	COMPLIANT	PHYSICIAN ACCESS	ALWAYS AVAILABLE

Secure & Encrypted

Secure, encrypted video and data handling designed for clinical environments.

Supports Your Team

Never replaces physicians, nurses, or care teams — only extends their reach.

Works With Existing Providers

Integrates into your current clinical workflows and provider network.

Bring Dr. temi to your facility in Singapore.

Empower your healthcare teams with intelligent telepresence, and improve patient access.
