HEIGHT

ONE ROBOT, TWO MODES

Welcomes Your Guests. Guides Their Journey.

Concierge and Tour Guide modes work together on the same unit — greeting visitors at the door, then leading them exactly where they need to go.

 CONCIERGE MODE

Greet & Assist

Stationed at the entrance or lobby, RS ConTour welcomes every visitor, answers common questions, and points them in the right direction.

- Greets visitors on arrival
- Answers FAQs & directs to departments
- Multilingual interactive display
- Queue & wayfinding assistance

 TOUR GUIDE MODE

Lead & Narrate

Once a visitor is ready, the same unit leads a guided route — narrating exhibits, landmarks, or points of interest along the way.

- Leads guided routes along set paths
- Narrates exhibits & points of interest
- Multi-stop itinerary playback
- Group-friendly pacing & interaction

THE PRODUCT

RS CONTOUR

One autonomous unit, ready to welcome and guide every visitor.

CORE CAPABILITIES

One Robot. Six Systems.

**23.5" Interactive Display**

A large central screen for information, promotions, and video content.

**Concierge Mode**

Greets visitors, answers FAQs, and directs them to the right place.

**Tour Guide Mode**

Leads guided routes and narrates points of interest along the way.

**360° LiDAR Navigation**

Real-time mapping & obstacle avoidance across busy public spaces.

**Multilingual Interface**

Serves visitors in multiple languages from the same display.

**Auto Return-to-Charge**

Docks itself on low battery for uninterrupted daily coverage.

DEPLOY ANYWHERE GUESTS GATHER

Hospitals · Malls · Museums · Offices & more

WHERE IT WORKS

Built For Every Guest-Facing Venue

Wherever visitors need a warm welcome and clear directions, RS ConTour adapts to the venue.

HEALTHCARE

Hospitals

Directs patients and visitors to departments, wards, and clinics, easing front-desk congestion during peak hours.

RETAIL

Shopping Malls

Welcomes shoppers, highlights promotions on the big screen, and guides them to stores and services.

CULTURE

Museums

Leads guided tours between exhibits, narrating each stop for individual visitors or groups.

CORPORATE

Office Buildings

Greets guests at reception, checks them in, and guides them to meeting rooms or the right floor.

Hotels & Resorts

Convention Centers

Campuses

Government Buildings

No Training Needed

Visitors interact naturally through the touchscreen and voice — no app or setup required.

Maps To Your Venue

Routes, content, and points of interest are configured for your specific floor plan.

Ready All Day

Auto return-to-charge keeps RS ConTour ready to greet the next visitor, all day long.

THE GUEST JOURNEY

From First Hello To Every Answer

01

Greet

Welcomes the visitor
and asks how it can help

>

02

Assist

Answers questions or
offers a guided tour

>

03

Guide

Leads the way, narrating
stops along the route

>

04

Return

Docks itself to recharge,
ready for the next guest

WHY IT MATTERS

**Always On Duty**

Consistent greeting and guidance,
no shift gaps or staff shortages.

**One Robot, Every Visitor**

Multilingual, patient, and consistent
with every guest it meets.

**Frees Your Team**

Redeploys front-of-house staff to
higher-value guest interactions.

MANAGED WITH EASE

**Remote Content Updates**

Update tour scripts, promotions, routes, and languages from
anywhere — no technical visit required.

**Visitor Insights**

See how many visitors were greeted, which tours ran, and
where guests needed the most help.

Let's put RS ConTour at your front door.

Hospitals to museums — RS ConTour adapts to your venue and your
visitors.
