WHY FOURCAST

Advertising That Moves. Not Just Another Sign.

Moving your message closer, smarter, more effectively.

TRADITIONAL DIGITAL SIGNAGE

Fixed Position

No mobility.

Limited Visibility

Small, fixed area only.

Customers Must Walk In

Audience has to find it.

Static Experience

Low interaction.

VS

TEMI FOURCAST

Autonomous Navigation

Moves to high-traffic areas.

360° Advertising

Max visibility, every angle.

Digital Projection Unit

Dynamic ground projection.

Interactive Engagement

Real-time engagement.

BRING YOUR ADVERTISING

Closer To Your Customers

FourCast brings the message to your customer.

POWERFUL FEATURES

Smarter Advertising, By Design

38.6" 4-Sided Display

Visible from every direction.

Digital Projection Unit

Dynamic ground projection.

Autonomous Navigation

Real-time obstacle avoidance.

Cloud CMS

Manage content from anywhere.

6-Wheel Drive

Stable on every floor.

Autonomous Charging

24/7 uninterrupted operation.

6-WHEEL DRIVE

Built To Move Through Real Spaces

High stability. Flexible deployment.
Advanced AI intelligence.

ADVANCED SENSOR SYSTEM

See, Understand. Navigate Safely.

A full sensor suite perceives the environment in real time, avoids obstacles, and keeps every space safe.

Front Camera

Face detection & interactive engagement.

Digital Projection Unit

High-brightness ground projection.

Interaction Cameras

Wide-angle presence detection.

Ground Depth Camera

Accurate ground-distance sensing.

360° LiDAR

Real-time 3D map, 35m range.

Top Depth Camera

Multi-height obstacle detection.

Cliff Sensors

Detects edges — prevents falls from stairs, escalators, or raised platforms.

INTERACTIVE STEP PROJECTION

Step To Discover

Push the boundaries of traditional advertising. When a visitor steps onto the projected area, the intelligent system commands the main screen to instantly change content — new offers, new videos, new engagement.

FLEXIBLE ADVERTISING

One Robot, Multiple Formats

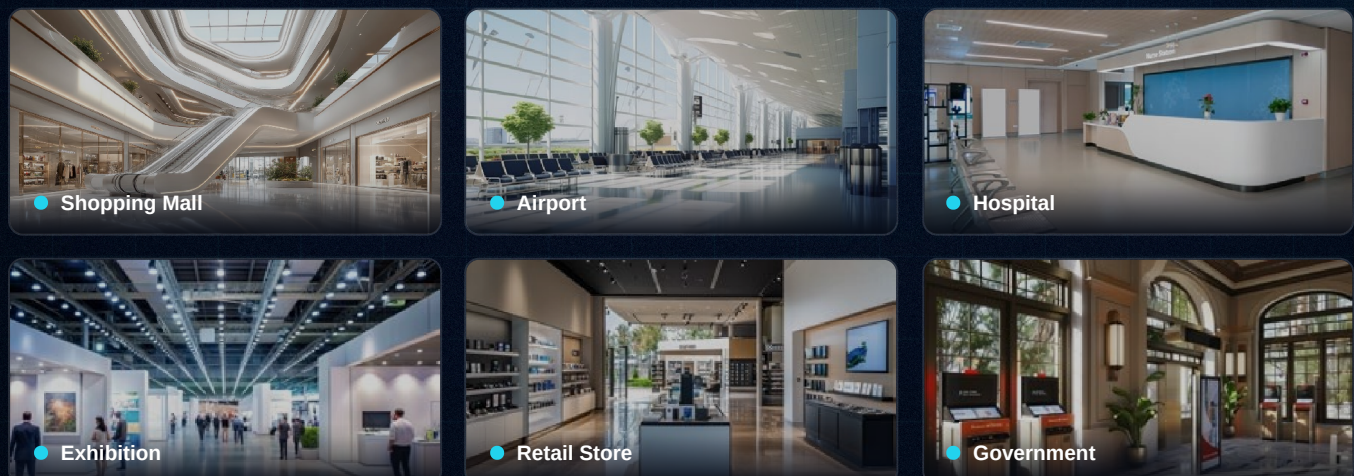

Multiple screen layouts. One robot.

All resolutions in pixels (px). For optimal display quality, follow the recommended resolution.
